Bynum Has Gall.

Special to the Indianapolis Journal. ELWOOD, Ind., Oct, 17.-Hon, W. D. Bynum addressed the Democrats of this city last night. He spent the entire day yesterday in company with leading Democrats visiting the different factories. He even summoned sufficient courage to visit the American tin-plate factory, where 3,500 boxes of tin plate are manufactured each week, and where he said two years ago that no tin plate was made. He also called on three hundred window-glass workers who are working for 221/2 per cent. less wages than they received under the Mc-Kinley bill, which reduction is the direct result of the Gorman tariff bill he helped to enact. The visits to the factories were made in order to make the men think he was interested in their welfare, and get them out to the meeting last night. In this he was badly disappointed, however, as the workingmen cannot be caught by Bynum in any such a manner. They have had enough of him and propose to sit down on him good and strong. Henry clubs are in existence in every factory in this city, but there are no Bynum clubs in any of them, because there are not enough Bynum men in the Elwood factories to constitute a club. The meeting at the opera-house last night was fairly well attended, and Bynum made a feeble effort at answering some very pertinent questions propounded by glass workers and others in an evening paper. His answers were mostly simply ridicule, and he seemed disposed to make light and laugh at them.

Tracewell's Meeting Packed. Special to the Indianapolis Journal.

MADISON, Ind., Oct. 17.-The Republican meeting at Center schoolhouse last night was a repetition of the large turn-out at Canaan the night before. Never before was such an outpouring of the voters of Saluda on such an occasion. Every inch of standing room in the schoolhouse was occupied, and several hundred were outside unable to get in for the crowd. It is estimated that fully six hundred people were present. Many came from Clark and Scott counties. Mr. Tracewell delivered one of the most logical and convincing speeches ever listened to by the people of Saluda. Hon. Ward H. Watson and Captain Van-osdal made short talks, after which the candidates announced themselves.

French and Belgian Republicans. Special to the Indianapolis Journal.

KOKOMO, Ind., Oct. 17 .- A French and Belgian Republican club has been formed in this city with a large membership. The club is composed largely of opalescent and liate-glass workers, many of whom will vote with the Republicans this fall for the first time. The Democracy will lose heavily in the plate-glass vote this year. Heretofore a majority of the 1,400 employes of the works at Kokomo and Elwood have 70ted the Democratic ticket. This year conditions are reversed, and the Republicans will be in the majority, and a good sized majority at that. A year's idleness and a reduction of 33 per cent. in wages has taught the employes a severe lesson.

COLUMBIA CITY, Ind., Oct. 17 .- Hon. C. W. Fairbanks addresed a large audience at Tuttle's Opera House this evening. Hanly, candidate for Congress in the Ninth district, was one of the largest ever held in this township. The Town Hall, with a seating capacity of five hundred, would not accommodate half the people. Case Speaks for Beveridge. Special to the Indianapolis Journal. HUNTINGTON, Ind., Oct. 17.-Republicans of this city had a great meeting at the opera house last night. The speaker was C. B. Case, of Greencastle, who came as a substitute for A. J. Beveridge. What-

Beveridge's absence, there is none this morning, for Mr. Case made a speech which was one of the best ever heard in the city.

Mortimer Nye Not a Success. Special to the Indianapolis Journal. NEWPORT, Ind., Oct. 17.-Lieutenant Governor Mortimer Nye spoke to an audience of seventy-nine last night at the courthouse and twenty-four of them were Republicans. His speech was weak and failed to bring forth a single cheer. There was no applause even when the name of Gov. Claude Matthews was mentioned in

connection with the presidency. Cheers for Royse.

THE IRVINE DIVORCE

UTAH SUPREME COURT HAS GRANT-ED THE HUSBAND A NEW TRIAL.

Soldiers' Monument at Jasper Unveiled-Death of Dr. Johnson, an Army Surgeon and Microscopist.

Special to the Indianapolis Journal. WABASH, Ind., Oct. 17.-Mrs. Addie Irvine, formerly Miss Addie Smith, of this city, to-day received information that a new trial had been granted her husband in the celebrated divorce suit which she won against the wealthy real-estate dealer of Salt Lake City a year ago. In the fall of 1892 Irvine, claiming to have evidence of his wife's intimacy with Ed Montgomery, President of the German National Bank of Lincoln, Neb., shot and killed Montgomery while he was at breakfast in the Hotel Lincoln. Irvine was acquitted, and Mrs. Irvine sued for divorce, the case being tried in the Territorial court at Salt Lake before Judge Zane last year, and the wife securing a decree, with the custody of her daughter Flossie and \$30,000 alimony. Irvine appealed, and Chief Justice Merritt to-day reversed the decision of the court below and remanded the case for trial. The suit and the sensational events lead ing up to it gave the domestic affairs of the Irvines national prominence. THE MIKADO'S SOLDIERS ENCAMPED NEAR PORT ARTHUR,

And His War Ships Outside the Harbor-The Kaiser Dedicates Flags and Welcomes Servia's King.

NEW YORK, Oct. 17 .- A dispatch from Shanghai says: Fifteen thousand troops under Field Marshal Oyama are encamped across Regents Sword promontory to the north of Port Arthur and within sight of that naval stronghold. They are waiting for a favorable moment to move forward, while outside the port the Japanese cruisers are ready to intercept all retreat seaward. Sung Kwafe, the Emperor's father-in-law, has reached Shan Hai Kwan, the place on the guif of Liao Tung where the high road from the goast to Peking begins. He takes the chief command and will try to prevent the landing of a force of the enemy at this point, which possesses great strategic importance. A serious split has occurred at Peking between Mr. O'Connor, the British minister, and Count Cas-sini, the Russian minister. All the foreigners at the capital have received peremptory orders to leave. The negotiations for peace have collapsed.

Russia's Fleet in the Orient.

LONDON, Oct. 17 .- The Times to-morrow will publish a dispatch from Tien Tsin, dated yesterday, saying that Japanese papers received at that place afford evidence that the report circulated three weeks ago of the dispatch of an army corps from Hiroshima for the invasion of China was untrue, any such expedition being ren-dered impossible by the shattered condition of the Japanese fleet. Japan, perhaps begins to reflect on the problem of the eventual extrication of her troops from Corea, where they remain on the sufferance of the maritime powers, especially Russia, who is sending eleven additional ships, including three ironclads. Russia will thus have the most formidable fleet ever as-sembled east of Suez.

News from the front is scarce. The Chinese headquarters is at Chuelenang Chang. General Sing is in command, Generals Yeh and Weh having been degraded. The Japanese headquarters is at Ping Yang. Their outposts in the direction of the Yalu river seem to be occupied in road

FLAG DEDICATION. Emperor William Takes Part in an

Interesting Ceremony. BERLIN, Oct. 17.-A magnificent military display was witnessed to-day in connection with the formal dedication of the 132 flags destined for the recently-organized fourth battalion of each regiment of infantry. The ceremony of nailing these flags to their staffs was performed by Emperor William in the Rhumes Halle, or Hall of Fame of the Arsenal, one of the best buildings in Berlin. The Hall of Fame occupies the north wing of the upper story and consists of three sections ornamented with historical frescoes and sculptures. Among those present at the interesting ceremony were the Empress and her four eldest sons, the German sovereigns now in Berlin, the commanders of the various army corps and flags destined for the guard regiments were on the tables in the center of the room; on the right hand were the flags destined for the regiments having even numbers, and on the left hand were flags to be presented to the regiments with odd numbers. The flags for the guards were of silk brocade and those for the other regiments were of rich silk. The Prussian bear and Prussian eagle were embroidered upon the flags in black silk; these designs were enfolded in a laurel wreath, and in each corner of the flags were embroidered the letters "W. R.," surmounted by a crown and surrounded with bay leaves. The flags for the Baden regiments show an artistic decorative painting. The ground color of the flags is white, red, yellow, blue or green, according to the color of the shoulder straps worn by the different battalions. Each flag is fastened to its staff by thirty gold-headed nails. All the flags were made and embroidered with gold or silver by the ladies of the Lette Verein of Berlin. Thirty-two ladies have been occupied with this work for months past. The flags cost 800 marks

Servia's Young King Visits the Emperor of Germany. POTSDAM, Oct. 17.-Alexander, the eighteen-year-old King of Servia, arrived here this evening from Buda-Pesth on a visit to Emperor William. Great preparations

had been made for his reception, and it was generally understood that this meant that the visit had political significance. The railway station was beautifully decorated, and a guard of honor was drawn up on the platform. The party waiting to receive King Alexander was a brilliant one, consisting of Emperor William and his sons, Baron Marschall Von Bieberstein, Imperia Foreign Minister General Bronsart Von Schollendorf, Minister of War, and the members of the general staff. The Emperor greeted the King most cordially, and after an inspection of the guard of honor

their Majesties drove to the palace, escorted by the guards. A grand gala dinner was given to-night at the new palace. The Emperor proposed the health of King Alexander. The latter, speaking in German, thanked Emperor William for the cordiality of his reception and said he hoped the friendly relations be-tween Servia and Germany would be further strengthened. He then called for three cheers for the Emperor and the imperial family. A reception followed in the grotto salon, which is inlaid with shells, with friezes of minerals and precious stones. A Vienna dispatch says that disquieting reports have reached that city from Belgrade, Servia, of an impending Cabinet crisis, which is the outcome of personal jealousies arising from the King's absence.

She Will Give Fifteen Acres for a Park Along White River.

The special committee on parks of the Commercial Club feels very much encouraged in its work by the favorable talks from prominent men and by the communications it has received. The committee met yesterday and prepared a report, after considerable discussion, making suggestions as to the course to be pursued in the park movement. This report will be submitted to the board of directors at its next meeting, and not until that time will the recommendations be given publicity. Among the communications received by Chairman E. F. Claypool was the following from Mrs. C. Maus:

"The movement to secure better and more extensive park facilities for the city of Indianapolis commends itself to my judg-ment as being timely and of great im-portance to the future growth of the city, and for that reason deserves the tullest support of her citizens. In order to aid the committee and as evidence of my good will for the success of the undertaking I sub-mit the following proposition: If the proposed system of city parks along the bank of Fall creek and White river are extend-ed along the east bank of the river to the intersection of New York street at an early day I agree to donate fifteen acres of land for park purposes near that point; or should the city purchase this land for park purposes I will agree to erect there a fountain or a group of statuary to cost not

less than \$10,000. The generous offer of Mrs. Maus, if accepted, will greatly enhance the value of land in that neighborhood, and the project offers inducements to property owners in the vicinity to come forward with proposi-tions. Eminent civil engineers and land-scape gardeners have proffered their services in work and suggestions for the general system of parks.

His Sweetheart Was Fickle. Henry C. Kent, a young carpenter employed at the Central Hospital for the Insane, mourns a lost love. Some months ago the young mechanic fell violently in love with Miss Ada Myers, a pretty hospital maid, and as the story goes his sentiment was reciprocated. Miss Myers some time ago left the hospital and went to her home in Tennessee, leaving with the young carpenter the impression that he was to claim er in her Southern home during the month of October. Last week the young man prepared to leave for the sunny South but was checked in his hasty flight by the direceach. Emperor William was heartily cheered by dense crowds of people while tion of his love and the magnolia biooms by a message which brought grief to his heart. Miss Myers, the report said, had married another man. The young carpenter declines to talk of his unfortunate affair. but continues to perform his duties at the
